Актуальность данной темы заключается в том, что у каждого народа есть праздники и традиции, и они неповторимы. Выбранная тема не случайна. Традиции - связь между прошлым, настоящим и будущим. Традиции и обычаи по праву считаются культурным наследием каждого народа. Они являются основой жизни и становления любого народа. В этих двух понятиях отражаются привычки и устои людей, их самобытность и индивидуальность. Обычаи и традиции служат памятью об истории предков. Осетинские праздники – это неотъемлемая часть культуры нашей страны. Зачастую, чтобы понять душу и характер жителей той или иной страны, необходимо познакомиться с их обычаями и традициями. Я бы хотела познакомить детей с наиболее известными праздниками народов России. В нашей стране много традиций и праздников, которых нет в других странах. В нашей работе мы рассмотрели главный праздник Осетии. Поражает то, что на

протяжении многих веков, он смог сохраниться, выжить и остаться актуальными в современном мире высоких технологий.

Biography of Uasyrdzhi

- In the image of Uasyrdzhi, one should see an Ossetian deity. People who identify him with St. George are deeply mistaken. Uasyrdzhi is not a historical person," explains historian, ethnographer Lasha Chikina. — Ossetians constantly supplemented his name with adorning epithets: golden, golden-winged, sharp-eyed, valiant, strong.
- The name of Uasyrdzhi is still mentioned by an area of unsustainable honor and reverence. He is represented in the imagination of Ossetians as a rider on a white horse, broad handaxe, good-summed tail.

Wedding on the holiday Djeorguba

- Ossetians often celebrated weddings on this holiday. Many young couples sought to get married in Djeorguba, as they sincerely believed that the marriage concluded on this holiday would be stronger.

HOLIDAY

- Dzheorguba is an autumn holiday in honor of the Ossetian patron saint of men. Preparation for the holiday begins on the Sunday before the last full week of November. The celebration begins on Monday and continues until the following Monday inclusive. Tuesday of this festive week is especially sacred. The holiday is celebrated both in North and South Ossetia. This is the biggest holiday among Ossetians, which is celebrated primarily by men. It is timed to the end of agricultural work, and is celebrated.

St. George is well known not only because on the coat of arms of Moscow, but also on the flag of England with its red cross of St. George on a white field. He was born in the 3rd century in Cappadocia, which was under the rule of a Roman emperor. After the death of his father, the young man and his mother moved to the city of Lydda, where he joined military service. When the persecution of Christians began in Rome, George, being a deeply religious man, could not look at it calmly.

He gave away all his acquired property to the poor, and he went to the emperor and admitted that he professed Christianity. After this, he was subjected to severe torture (the brave young man withstood all of them and was eventually beheaded).

St. George is popular in different countries. In Ossetia, people call him Uasyrdzhi - this Saint is often found in Ossetian myths.

Dzheorguyba

Dzheorguyba is an autumn holiday in honor of the Ossetian patron saint of men. Preparation for the holiday begins on the Sunday before the last full week of November. The celebration begins on Monday before Sunday of the festive week is especially sacred.

St. George is well known not only for the coat of arms of Moscow, but also for the flag of England with its red cross of St. George on a white field. He was born in the 3rd century in Cappadocia, which was under the rule of the Roman emperor. After the death of his father, the young man moved with his mother to the city of Lydda, where he entered military service.

When the persecution of Christians began in Rome, George, being a deeply religious man, could not look at it calmly. He distributed all his possessions to the poor, he appeared before the emperor and confessed that he professed Christianity. After that, he was subjected to cruel tortures (all of them the brave young man withstood with extreme heavy fortitude) and eventually beheaded.

The memory of this great martyr is honored in each country in its own way. Somewhere it is associated primarily with the patron saint of warriors, somewhere the legend of St. George in different countries on the occasion.
